

**Introducing**  
**Chameleon**  
**Symphony**  
**The Floor that Changes Color**

It's real ... like a Chameleon lizard these floors change colors! The colors and looks range from aesthetic harmony to artistic discord and everything in between.

With the introduction of Chameleon Symphony, the specifier's artistic expression meets the Scientifically Superior™ Technology from Miracote.

Pre-packed pigments and effects additives are field blended to create unique illusions.

The color-shifting technology means that the look changes when the light changes or when viewed from a different direction.

Special effects allows for simulated blooms, cascading symphony of colors and waves of excitement to be generated by these rich aesthetically appealing colors. The use of clear gloss or clear matte sealers enhance the colors intensity or mute it, depending on the end result desired.

To change color of your world, call us or visit our web site [www.miracote.com](http://www.miracote.com).
